

ON THE COLLEGE OR PROFESSOR'S LETTER HEAD

Letter Of Recommendation

It gives me a lot of pleasure to recommend Mr. Mukesh Kumar for graduate studies at your esteemed university. During six years of my teaching experience in the present college I have come across a wide spectrum of students considering all of his personal qualities. I would place him among the top 5% of all the students that I have taught. Amit has been my student for 4 years. I have taught him various subjects in this period, as listed below: Electromagnetic Wave Theory in IV Semester.
Analog Digital Integrated Ckts in V Semester.
Wave shaping Techniques in VI Semester.
Optical Fiber Com in VII Semester.

Mukesh is a very sincere and diligent student with sufficient motivation to excel in his chosen field of studies. He has been consistent in his academics, managing to retain his position within the top five percentile in his class all throughout the seven semesters. His performance in subjects like ADIC and Electromagnetic Wave Theory was exemplary where he managed to be ranked amongst the top 5 in the class. He has also shown an innovative nature and ability to think from a non-conventional point of view. I have seen a keen urge in him to understand engineering concepts beyond the theoretical purview reflecting his potential for research.

On a personal level Amit is an ambitious person showing a lot of enthusiasm for cultural and extra curricular activities. He presented a number of papers at various intercollege events of which one of the papers titled "Free Space Optical Communication in Metropolitan Area Network" won a second prize at IEEE Brainwaves Communications society's Paper Presentation Contest. He very diligently undertook a project on 'Two Way Traffic Signal Control' during the 5th semester.

Besides academics, Amit showed a keen interest in Computers and is well versed in C, C++ and has an excellent knowledge of Mat lab creating a number of simulation projects in this regard. He has also shown his adeptness at organizational skills. He has a very amicable disposition making him approachable and easy to communicate with.

I very much agree with his decisions to pursue graduate studies and strongly recommend him for admission and suitable financial assistantship at your university.

Mr.Rajan Sharma
